sammy10203024@gmail.com — +52 (686) 255 1906 — [linkedin.com/in/samuel-ernesto-gutierrez-lopez](https://www.linkedin.com/in/samuel-ernesto-gutierrez-lopez)

Fullstack Developer with **6+ years of experience** designing and developing scalable web and mobile applications. Strong background in **React, Next.js, React Native, Angular, TypeScript, and modern frontend architectures**. Experienced in building responsive user interfaces, optimizing application performance, creating reusable component systems, and collaborating with cross-functional teams to deliver high-quality products. Passionate about clean code, user experience, and scalable software solutions.

EXPERIENCE

Sales-Hub

January 2026 - October 2026

Frontend Web Developer

Mexicali, Baja California

- Developed and maintained **commercial landing pages** using **React, Next.js, TypeScript, and SCSS** for multiple client campaigns and products.
- Built reusable and modular UI components to improve **scalability, maintainability, and development efficiency**.
- Implemented **dynamic enrollment workflows and subscription plans**, enabling customers to request and manage products through responsive interfaces.
- Managed project dependencies and application packages using **Yarn**, ensuring consistency across development environments.
- Collaborated closely with design and business teams to deliver optimized user experiences and responsive solutions.

Kirana Labs

May 2025 - October 2025

Senior Fullstack Developer

Mexicali, Baja California

- Developed **applications using React and React Native** for healthcare management solutions.
- Built an **internal management platform** for doctors, patients, caregivers, appointments, medications, and treatment plans.
- Created a **public-facing website** to improve service visibility and patient engagement.
- Developed a **mobile application** allowing patients and caregivers to manage appointments and treatment information.
- Implemented **TRPC, Drizzle ORM, and Zod** to improve routing, validation, and application maintainability.

Sales Hub

October 2022 - November 2024

Frontend Web Developer

Mexicali, Baja California

- Developed and maintained a **sales and user management platform** using **Angular, TypeScript, and SCSS**.
- Migrated legacy projects to **React and Next.js**, improving code modularity and maintainability.
- Designed and developed responsive landing pages focused on user experience and conversion optimization.
- Implemented automated testing workflows with **Cypress**, improving application quality and reducing production issues.
- Mentored junior developers and shared best practices for **TypeScript, JavaScript, and frontend development**.
- Collaborated with designers and backend teams to deliver scalable product solutions.

Geologic GPS

Fullstack Web Developer

September 2021 – October 2022

Mexicali, Baja California

- Designed and implemented database structures using **Node.js, Knex, and MySQL**.
- Optimized complex SQL queries and backend processes to improve system performance.
- Developed scalable APIs and reusable modules using **JavaScript and TypeScript**.
- Automated recurring operational processes to improve internal efficiency.

Grupo Red

Fullstack Web Developer

February 2020 – November 2020

Mexicali, Baja California

- Developed and maintained dynamic web applications using **Angular, JavaScript, and Node.js**.
- Built reusable components and modular architectures to improve scalability.
- Enhanced UI responsiveness and overall user experience across multiple projects.
- Participated in code reviews and technical documentation processes.

SKILLS

HTML, CSS, JavaScript, TypeScript, MySQL, ReactJS, Angular, NextJS, NodeJS, ExpressJS, React Native, SASS, Redux, Context API, Zod, Cypress, React Testing, Jest, Git, Github, Jira, Claude, ChatGpt

EDUCATION

Autonomous University of Baja California

Computer engineering

2014-2019
